## About % Arabica

% Arabica is a brand recognized globally thanks to its distinctive % logo (reminiscent of coffee cherries on the branch of a coffee plant), inimitable store aesthetic and, most importantly, the brand's high-quality specialty coffee menu, all brewed using state-of-the-art equipment. The brand's international acclaim is testament to founder Kenneth Shoji's four core values:

- #SeeTheWorldThroughCoffee - The notion of Kenbun (which, loosely translated, means 'to see and to hear' in Japanese) led founder Kenneth Shoji to create this brand motto. The company aims to open stores in amazing destinations globally so that young baristas can see the world, set personal goals, and, one day, challenge the world with their own ideas. Twice a year, % Arabica invites baristas from around the world together for a programme of events in different cities to give them an opportunity to travel, explore, and learn more about coffee and its global reach.
- Timelessness - % Arabica remains true to its brand identity of offering the best beans, the best service, and the best state-of-the-art equipment. It does not need to follow or adapt to fads and trends. Kenneth believes 'something good does not have to change' so the drinks menu is simple and minimal. Japan is famed for having many 100-year-old companies and remaining true to its core values, % Arabica aims to bring sustainable long-term stability to the company, customers, and the supply chain.
- Identity - Aesthetically, % Arabica spaces showcase the highest attention to detail; a minimal yet purposeful design and all original features, down to even the light switches, door handles and amplifiers. Each store places wood-paneled Slayer espresso machines at center stage which have been custom-made and built by hand in the USA.
- Japanese sense of beauty - % Arabica celebrates its Japanese roots by highlighting the culture's hardworking, simplistic, and functional ideologies. Baristas are encouraged to work with Teinei (being mindful of your surroundings) and not waste a single movement or moment in their workflow. Every cup of coffee served must be made to the best of their abilities to showcase the quality of every component in the cup and show to customers the dedication of every member of the global team that played their part in bringing % Arabica to Indonesia and other countries worldwide.
